"Romantic... Intimate... Seductive..." these words describe the atmosphere at the Award Winning Alfred's Victorian in Middletown. Long the area standard for special occasion fine dining, there is yet another adjective which defines Alfred's: Haunted. Since its restoration and conversion in the early 1970's the ethereal presence of "Emma", a former resident, has frequently shared her unique form of hospitality with patrons and staff.

*Join Paranormal Investigators Kelly and John Weaver for an evening sharing true tales of hauntings experienced in Alfred's and other mid-state locations. See ghost photos and hear spirit voices captured on tape (Electronic Voice Phenomenon). Enjoy a great meal in the Alfred's tradition and perhaps even have your own ghostly encounter with Emma, as some have had during previous "Haunted Dining" events!*

**Note: Beginning in Spring 2006, activity has clearly escalated at Alfred's - we have many new stories and pieces of evidence to share, gathered over the past few months!**
