# KELLY'S MAGICAL GARDEN

## *Meet the "Gardener"*

Growing up in a haunted 19th Century home in Hummelstown, PA, Kelly learned at an early age of her ability to communicate with the "other side". This ability, like any gift or talent, has evolved considerably over the years. A graduate of The York Academy of Arts, she had a successful career in the advertising field before forsaking the corporate world to devote her energies to the metaphysical subjects that have long fascinated her. In 1997, *KELLY'S MAGICAL GARDEN* was opened to offer her unique products and services; Kelly is a gifted psychic-medium who uses her intuitive powers to assist others in many ways, including finding their own path in life.

The products offered by *Kelly's Magical Garden* have gained a strong and loyal following. Though her market has expanded greatly through national advertising and her website, both launched in 1999, Kelly continues to produce all products herself, thereby charging each with her own magical energy.

Kelly conducts paranormal investigations with her husband, and in 1996 founded the Capital Ghost Forum (now Spirit Society of PA). Kelly helps people understand who is haunting their residence or business and why, and can often assist an earthbound spirit in moving on. Her skills as a Medium and Ghosthunter have been highlighted in numerous television and radio appearances and in magazines and newspapers. TV credits include Fox's 1999 Documentary "The Pennsylvania Ghost Project", MTV's "Fear", The Sally-Jessy Raphael Show and Discovery Channel's "A Haunting". She is a regional investigator for The American Ghost Society and a member of The Academy of Religion and Psychological Research. Also a writer, Kelly's articles have appeared in several paranormal publications and her first book, *Whispers In the Attic - Living With the Dead*, was published in June 2004.

For over 20 years, Kelly has worked with nature's energies to manifest positive changes in her life. A Reiki Master, and Certified Aromatherapist, she has also been initiated into the healing rites of *Pa'Chu Mama* (Earth Mother). An accomplished public speaker, Kelly regularly lectures on a variety of metaphysical and paranormal subjects at local colleges and organizations. She and her artist husband share a love of history, the paranormal and nature. They relish the serenity of their garden and are the devoted "parents" of several canine and feline companions.

*"Ever since I was a little girl, I've been fascinated with the unseen world. Always using my creative nature to its fullest, I have intensely studied Spirit Communication, Nature and Her Elements. Intuition and Dream Interpretation play major roles in my life, as do Herbs, Crystals and Gemstones."*

**Kelly's Magical Garden** offers Aromatherapy products for your spiritual quest. Delightful oils to calm and soothe you, or to give you courage and balance. Dip into a luscious, fragrant bubble bath, or comfort the aches and pains with the powerful healing oils for the body. Carry an herbal charm for luck, romance, money and more.

Would you like to learn more about yourself? Why not treat yourself to an Intuitive Reading. There are many services to choose from. One is right for you. Small gatherings are also available.

Enhance your spirit by enrolling in the intimate workshops designed with you in mind. Many subjects are offered. Small groups lend to deep learning and understanding. What are you waiting for? **YOUR SPIRIT IS CALLING!**

**Magical Aromatherapy** is a time honored practice which has only recently been rediscovered, a gift from the past ages which we can use to improve our lives.

We can work with the precious scents of flowers, leaves, seeds, and woods to expand our ability to sense love within ourselves and to return it to others. Specific fragrances draw prosperity into our lives. Aromas are useful in heightening spirituality, sharpening psychic awareness and creating restful sleep. Certain scents increase physical energy and mental alertness, reduce the effects of stress and guard our bodies.

All of these wonders and more can be found through the art of Magical Aromatherapy.

- *If you are pregnant, please consult Kelly before using any of these products.*
- *Aromatherapy is not a substitute for medical advice. Consult with your doctor if you have any questions.*

## **Connecting with the Other Side - How A Medium Works**

If we accept that dying is not the end of our existence, just the end of the body that carried our consciousness and that our soul survives and exists somewhere else, then it might be possible to make contact with that consciousness and all the emotions and memories that made that person what they were.

Where are they? Not as far away as some would think! The world of spirit exists all around us, but just out of our reach. It may be better to think of it as a dimension rather than a place. Most believe that this world exists on a different vibration of our own. It helps to think of it as a different frequency, much like a radio has different frequencies. The medium has learned to attune to this different and higher frequency or vibration. Likewise, those in the spirit world can tune into us, it is this joint effort that enables communication.

When Kelly sits with a client, she is in a highly receptive state. Our spirit family and friends can see and hear us, they probably have even come with you to your appointment! Mediums have the ability to slow down and alter their perception, raising their awareness to a subtle energy that allows them to perceive the messages from the spirit world.

This contact is often referred to as “making a link”. The medium has made a request for a communicator to come forward. Once a link is established, the spirit person will often want to prove their identity. The “communicator” will transmit thoughts about themselves to the medium, the medium will then be able to interpret these thoughts and describe the person back to the client. In order to do this, the medium must easily be able to attune to the spirit world.

A medium usually has a variety of psychic skills, but the underlying purpose is to prove the existence of life after death, to console and advise others and to further develop their own spirituality. Some like Kelly, are born with this gift, others can learn to develop the abilities.

Kelly commonly works with mental pictures, and symbolic images. Think of it as a cryptic puzzle. For example if the medium is shown water, it could be that the spirit person had connections with water in his or her life, such as being in the navy or coastguard. A medium cannot force a spirit to communicate upon demand.

# Herbal Charms

The basis of herb magic - and all magic - *is the power!* The power has worn many names and forms throughout the centuries.

The power is that which generated and maintained the universe. It is the power that germinates seeds, raises winds and spins our planet. It is the energy behind birth and death. Everything in the universe was created by it, contains a bit of it and is answerable to it.

A charm bag is a colorful cloth filled with enchanted herbs, essential oils, and ancient symbols. Each herb, oil and symbol are very *powerful* in their own right. When the mixture is placed together, the power is *ten fold*. These small bags may be carried with you in your purse or pocket, in your automobile, under your pillow, or placed anywhere you need to feel their power!

# Testimonials

**From SAGE WOMAN Magazine, Spring 2000:** *"Wow, this stuff is great! The minute I opened the box containing these perfumed oils, I knew they were something special. In attractively packaged bottles, Kelly's Magical Garden perfumed oil blends smell absolutely delicious and what's more they work!"*

*I used the **Magical Energy** oil blend for anointing at our Samhain circle; all my coven sisters remarked on 'the clean, light' fragrance. For myself, I felt instantly grounded just smelling it. The **Divination** oil blend is citrusy and minty, and I could feel my 'vision' open when stroking it on my third eye before reading cards. I often use Aromatherapy for my moontime cramps and **Grandma's Remedy for Ladies** oil blend, added to my bath, was soothing, energizing and really eased my cramps.*

*For use in ritual baths and for anointing, these oils really are a treat. Far superior to commercial brands, which are frequently both cloying and short-lived, these oils are light yet lasting, and you can feel the loving intent that went into them. I recommend these oils highly; I plan to use mine for my solitary and coven workings from now on." - reviewed by Leni Austine*

**Comments From Recent Clients:** *"Kelly, thanks so much for such prompt service. The Arthritis oil is hard to believe! One little swipe and that bothersome ache was GONE. A lot of people wouldn't believe it, but I know you will! And it hasn't returned." M. Wood*

I feel changed somehow from last night's experience! Today my body is tired, but my spirit is soaring. I feel such a warm glow inside me. Thank you!" Cathy S.*
